

China The company's name has been connected with electrical cable since 1906 when the earliest magneto-cable for the nascent automobile industry appeared. The following year Draka came out with the first electrical control cables for elevators.

Today Draka Elevator Products is a business division of Draka Cableteq, one of the world's largest cable manufacturers. Their popular Super-Flex® round traveling cable features a lifetime warranty as well as steel central support at the heart of the cable, stranded conductors, shielded pairs, electrical-grade dried jute filler, rayon or cotton braiding all encased in a PVC jacket. This combination creates a product suited to the demands of elevator work, due especially to its flexibility and abrasion-resistance.

In addition to flat traveling cable with combinations for power, signal and shielded pairs and coax, they manufacture Super-Duct® hoistway cable. This cable uses bunch-stranded copper wire with color-coded flame-retardant PVC insulation. Their Whisper-Flex® compensating cable provides smooth operation for higher-rise elevators.

Globally active producer of wire rope with headquarters in Germany

Gustav Wolf's worldwide headquar-

Historical photo of Gustav Wolf workers from the late 1800s.

ters in Guetersloh, Germany is the site of their main administrative offices, engineering offices, testing laboratory location and manufacturing facilities. Lindemeyer returned to North Carolina in early spring, 2010 after a trip to the company's annual sales meeting in Guetersloh.

In addition to one or two meetings in Germany yearly, Lindemeyer also

participates in the Interlift trade show in Augsburg, Germany (the next one will be in October, 2011.) This trade show dedicates itself exclusively to the elevator/escalator industry. The National Association of Elevator Contractors (NAEC) has an annual event, NAEC Convention and Expo, in which they also participate. This event is to

Chicago Hardware & Fixture Co.

DROP FORGED PRODUCTS

- Turnbuckles
- Shackles
- Wire Rope Clips
(also malleable)
- Machinery Eye Bolts
- Eye Bolts
regular & shoulder
- Eye Nuts
- Rod Ends: *blank & machined*
- Ring Bolts
- Hooks
- Swivels
- Pad Eyes
- Yoke Ends

WIRE PRODUCTS

- "S" Hooks
- Turned Eye Bolts *(threaded)*
lag, mach. or welded
- U-Bolts *(galv. & zinc)*
rd., sq. & long tangent
- Threaded Rod

SPECIAL PRODUCTS

Manufactured to Specifications

OTHER PRODUCTS

- Alloy Steel Hoist Rings
- Wire Rope Thimbles
- Bevel Washers
- Clevis Pins
- Coupling Nuts
- Plated Steel Shapes
- Brass - rounds, flats & angles

STAINLESS & METRIC

(check availability)

- Eye Bolts & Eye Nuts
- U-Bolts
- "S" Hooks
- Wire Rope Clips
- Blank Rod Ends
- Threaded Rods
