

continued from previous page

Winners were selected based on NAICS code categories and BLS injury and illness incidence rates.

Based in Rockford, IL, the Fabricators & Manufacturers Association, Intl. (FMA), is a professional organization with more than 2,100 members working together to improve the metal forming and fabricating industry. Founded in 1970, FMA brings metal fabricators and fabricating equipment manufacturers together through technology councils, educational programs, networking events, and the FABTECH® exposition. FMA also has a technology affiliate, the Tube & Pipe Association, International (TPA), which focuses on the unique needs of companies engaged in tube and pipe producing and fabricating.

### SC&RA announces first Crane Operator Safety Awards at annual conference

The Specialized Carriers & Rigging Association (SC&RA) awarded 18 Crane Operator Safety Awards during the 2010 Annual Conference, April 6-10, at the Omni Hotel at Champions Gate, Orlando, FL. This new award was presented to certified crane operators who exhibit

exemplary work achievements while accumulating 10,000 consecutive man-hours and recording zero accidents or incidents. Winners represent six different companies:

J.J. Curran Crane Co., Detroit, Mich.—Patrick Farr

Dutcher-Phipps Crane & Rigging Co., Monahans, Texas—Lance Cagle, Michael Higgins, Roger Mills, Gilbert Nunez and Johnny Viscaino

W.O. Grubb Crane Rental, Inc.—Steve Grubb

Industrial Builders, Inc., Wells Fargo, N.D.—Tom Leingang, Brandon Podoll, Keith Pryor and Tom Roerich

Mountain Crane Service, Salt Lake City, Utah—Tyson Allen and Doug Steinfeldt

Mr. Crane, Inc., Orange, Calif.—Shawn Deitrick, Chris Deppe and Randall Roberts

The Specialized Carriers and Rigging Association (SC&RA) is an international trade association of nearly 1,400 members from 49 nations. Members are involved in specialized transportation, machinery moving and erecting, industrial maintenance, millwrighting and crane and rigging operations, manufacturing and rental. SC&RA helps members run more efficient and safer businesses by monitoring and af-

fecting pending legislation and regulatory policies at the state and national levels; researching and reporting on safety concerns and best business practices; and providing five yearly forums where these and other relevant member issues can be advanced.

### Continued success for wire and Tube 2010

The fact that the economy is improving was reflected at the recent staging of wire 2010 – International Wire and Cable Trade Fair and Tube 2010 – International Tube and Pipe Trade Fair in Düsseldorf, Germany: the positive mood among the 2,400 exhibitors (compared to 2,200 exhibitors in 2008) and 69,200 visitors from over 100 countries was the result of constructive talks, avid purchasing interest and actual deals as well as optimistic post-show expectations which characterized the atmosphere at both trade fairs. The exhibitors showcased the latest machinery, equipment and products from the wire, cable and tube processing industries on 1.07 million square feet of net exhibit space. According to a survey, the majority of the exhibitors stated that the quality of the visitors has increased again and were pleased with
